

In response to allowing LPFM's to replace current FM translator services, I would like to make a brief comment concerning Air 1 (90.1 in our area). Air 1 is an essential part of our lives. It is the only station we listen to at home and in our cars, and we value their Christ-centered programming. If you replace Air 1 with a LPFM, we cannot be assured that their programming would benefit our community, as does Air 1 by providing safe, family friendly music in an entirely commercial free atmosphere, and not promoting sex, violence, and hatred like 95% of all other radio stations. I believe Air 1 is in the best public interest because as long as there are people in darkness, without hope, looking for answers, there should be a place for them to turn to and find them- and that place is Air 1 who points them straight to Christ. May God continue to bless Air 1-
